Universal wireless keyboard with stand function

SKU: TAUNITOUCHKEYBOARDS

Connect with any enabled device and enjoy a comfortable typing experience even with a smart TV

Type on any device wirelessly

With the **universal wireless keyboard** you can type on any compatible device without using any wires, with a **range of up to 10 m**. The model is **compatible with a wide range of Apple, Android and Windows devices** equipped with a wireless connection, so you can easily type on your smartphone, tablet, laptop or smart TV.

The touchpad makes it even more practical

The keyboard comes with a **touchpad** with two push buttons just like an actual laptop! Move the cursor easily on your writing software.Also, if your Apple device is the iOS 13 version or later, you can enjoy many functions completely intuitively and comfortably, directly from the touchpad.

Enjoy optimal screen viewing

The **universal wireless keyboard** is equipped with a convenient, practical **stand with a removable stand function** for positioning your device. Just attach it to the keyboard and insert your smartphone or tablet into the appropriate slot to stabilise it in front of you and enjoy optimal screen viewing at all times.

Long battery life

You can type, read and work for a long time thanks to the **280 mAh (milliampere/hr) long-lasting, reliable battery**. Once charged, the wireless keyboard guarantees you **up to 44 hrs of use**.

When the battery runs out, simply connect it to a compatible power source using the **cable with USB-A to USB-C connectors** provided to charge it.

Ideal for both home and office use

Thanks to its **ultra slim and compact design**, just 6 mm thick, it takes up very little space on your office desk or home table. It's also light enough to be carried around in your backpack or bag, so you can have it on you when out and about.
