20000 mAh High Density Power Bank with PD and dual USB ports

SKU: TEBBCT20000PDLDK

The SBS 20000 mAh High Density Power Bank provides extra power and fast PD charging for multiple devices in complete safety.

Maximum autonomy for your devices

The **SBS 20000 mAh Power Bank** is the perfect choice for people who never want to worry about their battery life. Thanks to its high capacity, you can charge smartphones, tablets and e-readers multiple times, enjoying days of use with no need for a power socket. Thanks to the **High-Density** technology, remarkable power is contained in a compact and surprisingly lightweight design: a much more convenient option than equivalent classic power banks.

Fast charging with Power Delivery

The **USB-C port with Power Delivery up to 18 W** allows you to charge even the most demanding devices very quickly. Whether you are charging a latest-generation smartphone or a tablet, the power bank safely delivers the right amount of energy, protecting the batteries and reducing charging times. It therefore cuts waiting times and offers greater freedom of use throughout the day.

Efficiency and compatibility

Thanks to the presence of **USB-C and USB-A ports**, you can charge two devices simultaneously, always maintaining the same high level of performance. Perfect for anyone who carries multiple devices while travelling, during business trips or days out, this power bank guarantees reliability and advanced protection against short-circuiting and surges.

Main features:

- **20000 mAh capacity**: multiple charges for smartphones and tablets.
- **High Density**: more energy in less space.
- **Power Delivery (PD)**: fast charging up to 18 W.
- **USB-C + USB-A ports** for maximum compatibility.
- **Advanced security**: short-circuit and surge protection.
- **Practical format**: ideal for people who travel or use multiple devices.
