15 Watt car charger with wireless connection

SKU: TECARFM2USB

Charger with built-in radio for charging your smartphone and listening to your favourite music

Lets you listen to your favourite music

This **15W car charger** allows you to connect your smartphone to the car radio wirelessly, even where the radio does not support **wireless connection**. Plug it into a **12V cigarette lighter socket** and pair your phone. Using the integrated dial, set a radio frequency on the charger and then tune the same frequency on your car radio. The charger will then be able to connect to the radio using the FM frequency and all **the music broadcast** from your **smartphone** will be **played through your car's speakers**.

You can also use it to listen to calls

If you receive a call, just press the button on the charger dial. You will then be able to **hear your caller clearly,** direct from the car's audio speakers.

You can also use a TF card or USB stick

If you have music on a Micro SD memory card (less than 32 GB) or a USB stick, no problem: just insert them into the appropriate ports. You will have **all your music at your fingertips** in your daily travels.

Charge your mobile phone in the car at 15 Watts

With your two USB-A ports, **you can charge up to two devices simultaneously**. The car charger delivers **15 Watts** of power, allowing you to quickly charge a device when connected individually to the green USB-A port. The **Adaptive Fast Charge (AFC) technology** regulates the power emitted, depending on the recharged device, in order to guarantee **safe power supply** .

The built-in controls are extremely practical

To **change the music**, **increase the volume** or **play/pause** a song, simply use the controls on the dial or at the sides. The centre button can also be used to **manage calls**.

Key features:

- Built-in FM frequency to connect to the car radio's
- wireless connection for smartphones
- two USB-A ports
- maximum power delivered: 15 Watts

- Adaptive Fast Charge (AFC) technology: safe charging, with no risk of short circuits or overheating.
- ports for USB sticks and TF cards (up to 32GB)
- built-in controls for music and calls
