

Cover for iPhone 16e with D3O technology

SKU: TED3OBKCOVIPSE25

A cover that does more than just protect, thanks to D3O technology

D3O: YOU'LL NO LONGER BE ABLE TO DO WITHOUT IT

This **cover for iPhone 16e** isn't your usual phone protector. It's actually made with **D3O material**, a special fluid that disperses the force of the impact ensuring optimal protection for your smartphone. This material is also normally used to make motorcycle clothing, work helmets and even military equipment. The D3O cover is the **ultimate case**.

IT ALSO PROTECTS THE CAMERA AND THE SIDE BUTTONS

It also has **camera holes** to create photos and videos whenever you want. These holes are, however, connected to each other to also give good protection to the smartphone's camera. The **side buttons** are also protected by the cover, but you can always use them comfortably **without difficulty**.

WIRELESS CHARGING COMPATIBLE

You can easily charge your smartphone wirelessly without having to remove the cover.

Key features:

- material: D3O + PC
- D3O technology: disperses the force of the impact avoiding damage to the smartphone
- wireless charging compatible
- it also protects the camera and side buttons
- colour: black
