

Case for iPhone 17 Pro with D3O technology

SKU: TED3OBKMAGIP1763P

Compatible with MagSafe Wireless charging

D3O: YOU WON'T BE ABLE TO DO WITHOUT IT

This **iPhone 17 Pro cover** isn't your typical phone protector. It's actually made with **D3O material**: a special fluid that disperses the force of the impact, ensuring optimal protection for your smartphone. This material is normally used to make motorcycle clothing, work helmets, and even military equipment. The D3O cover is the **ultimate case**.

EXTRA PROTECTION FOR THE CAMERA AND SIDE BUTTONS

It also has **camera holes** to create photos and videos whenever you want. However, these holes are connected to each other to ensure good protection for the smartphone's camera. The **side buttons** are also protected by the cover, but you can still use them comfortably and **effortlessly**.

COMPATIBLE WITH MAGSAFE WIRELESS CHARGING

You can easily charge your smartphone wirelessly without having to remove the cover thanks to its MagSafe compatibility. Enjoy compatibility with magnetic accessories like power banks, stands and more.

Key features:

- material: D3O + PC
- D3O technology: disperses the force of the impact, avoiding damage to the smartphone
- compatible with MagSafe wireless charging
- it also protects the camera and side buttons
