

TWS earphones with charging case and HD microphone

SKU: TEEARTWSORCBTK

The everyday earphones that are also ideal for sport and the gym

Wireless connection

The **TWS Sparkly** earphones are a must-have accessory for work and for those who can't do without music. They are clutter-free as they **don't require any wires** to connect with each other or with your **smartphone, tablet or laptop**. After the first time they pair, the earphones automatically connect to the device. Thanks to **True Wireless Stereo (TWS)** technology, the earphones also synchronise with each other immediately. Even at **10 metres away**, the signal will remain stable, so you can move in total freedom.

With in-built, high-definition microphone

The **Environmental Noise Cancellation (ENC)** technology present in the **microphone** enables you to communicate clearly to the person you're speaking to even in places that aren't perfectly quiet. Thanks to a system of algorithms, **external noise is actually filtered out and reduced**, leaving room for your voice only.

Also use them while playing sport thanks to the removable headbands

In the package you'll find two removable silicone headbands that keep the earpieces stable in your ears, even in the event of shaking or sudden movements. The Sparkly earphones are therefore also particularly suitable for **running or exercising in the gym**.

All-day music and calls thanks to the charging case

To **charge the earphones**, you don't need wires or sockets: just **put them inside the 300 mAh case**. In this way, you can **power them up anywhere**, bringing them back to full charge in 1½ hours. The headphones have **five consecutive hours'** battery life and **the headset can give up to five charges** before running out of power, so call and listen to music all day long. Through the **USB-A to USB-C cable** included, you can charge the base when it runs out of power.

Control every action directly from the headset with touch buttons

Touch controls located directly on the earphones allow **you to control music and calls** with a simple touch and without using the connected device. You can play/pause a song, change tracks, answer/end/reject a call and activate the voice assistant conveniently.

Key features:

- wireless connection
- 300 mAh charging case
- True Wireless Stereo (TWS) technology
- auto pairing

- HD microphone with Environmental Noise Cancellation (ENC) technology
- playback time: 5 hours
- charging time: 1.5 hrs
- standby time: 24 hours
- multifunction touch buttons

Contents include:

- 1 x pair of earphones
- 1 x charging case
- 1 x USB-A - USB-C charging cable
- instruction manual
- 1 x silicone ear bands
