Wall charger with LCD screen, 1 USB-C PD 30W output, 1 USB-A 18W output

SKU: TETRGANLCD1USB1C30K

Charge up to 2 devices at the same time and monitor the energy delivered with the LCD screen

The **30W Power Control wall charger** is a power supply designed to offer fast and efficient charging for a variety of electronic devices. These are the key features:

LCD screen: keep a close eye on power output at all times

The charger is equipped with an LCD screen that shows the power delivered in real time during charging. This allows you to easily monitor the charging progress and always keep an eye on the device's performance.

What sets GaN chargers apart

This charger is made with **gallium nitride semiconductors.** The charger is therefore **small but very powerful.**

Two charging outputs: the advantages of the charger
The Power Control charger has two outputs so you can **also recharge two devices at the same time.**

USB-C with Power Delivery (PD) 30W
The USB-C output supports technology **Power Delivery (PD) up to 30W**. This charging standard allows for a greater amount of power to be delivered in a shorter amount of time, making it ideal for devices that require a high amount of power, such as laptops and tablets. The benefits of Power Delivery charging include:

Faster charging: thanks to the ability to deliver up to 30W, compatible devices such as smartphones, tablets and some laptops can be charged quickly. For example, a smartphone can be fully charged in just 30 minutes.
Security for devices: the PD power supply enables communication between the charger and the device, automatically adjusting the power supplied based on the needs of the device, thus optimising charging and preventing overheating.

USB-A with 18W Adaptive Fast Charge
The USB-A output features Adaptive Fast Charge, a technology that automatically adjusts the output power to offer the best possible charging speed based on the capabilities of the connected device. The main advantages of this technology include:

Charging optimisation: the Adaptive Fast Charge charger detects the type of device connected and adapts the power accordingly, ensuring fast charging without the risk of overcharging.
Universal compatibility: it is compatible with a wide range of devices such as TWS earphones, e-Readers and speakers, allowing even mobile phones that do not support Power Delivery to be charged quickly such as many Android smartphone models including Xiaomi, Oppo and Samsung.

Charging Time
The Power Control charger is designed to be highly efficient, offering fast charging times for different types of devices:

Smartphone: **full charge in 30 minutes**, thanks to the high power delivery via the USB-C output with PD.
Tablet: full charge in **60 minutes**, taking advantage of the charger's optimised output.
Laptop: fully charged in **110 minutes** with Power Delivery, making it an ideal accessory for those who need to charge larger, more powerful devices quickly and efficiently.

This Power Control wall charger is therefore an excellent choice for those looking for a **versatile, powerful and intelligent charging solution** that is capable of meeting the needs of a wide range of electronic devices.

Key features:

- LCD screen showing the power output of the charger
- 2 outputs so you can charge two devices at the same time
- 1 USB-C output is 30W Power Delivery for compatible devices
- 1 USB-A output is Adaptive Fast Charge for earphones, speakers, power banks and Android phones without Power Delivery
- A smartphone is powered in 30 minutes, a tablet in 60 minutes and a laptop in 110 minutes

Wall charger with LCD screen, 1 USB-C PD 30W output, 1 USB-A 18W output
SKU: TETRGANLCD1USB1C30K

Technical data

SKU: TETRGANLCD1USB1C30K
Weight: 58 g
Output power: 30W
Recharging time: smartphone 30 minutes, tablet 1 hour, laptop 110 minutes
Maximum output power: 30 W
EAN: 8018417481475
GPSR: The product must not be used by children or by people unable to understand the potential risks., Item subject to WEEE Directive 2012/19/EU, Item subject to CE marking, The device is protected by double insulation, an earthed connection is not permitted, Packaging of the item subject to the "Green Dot" recycling system, Use the product indoors and in a sheltered environment, The item packaging is recyclable, Item subject to UKCA marking
Color: black
Input: 110-240V A.C. 50/60 Hz 0.85 A
Output: 1 USB TYPE-C PD, 30W, USB AFC 18W
Connector: 1xUSB-A, 1xUSB-C
Plug type: EU EU (Type C)
Technology: Adaptive Fast Charge, GaN, Intelligent Charge, Power Delivery (PD)
Connector 1: 1xUSB-A, 1xUSB-C
Charging type: Power Delivery 30W
Input voltage: 110-240V A.C. 50/60 Hz 0.85 A
Other features: LCD display
